Alefbet Babies

8 weeks – 12 months

**Our Alefbet Babies program is
your baby's home away from home!**

Our program develops meaningful partnerships with each family to maintain continuity between home and preschool.

- Daily routines are built around the individual needs and developmental milestones of your baby.
- Manipulatives and other materials are carefully selected to meet the unique social, emotional, cognitive and physical development of your baby.
- We focus on creating experiences and opportunities that invite exploration and support the incredible growth and development of your child at this age.
- Our warm and loving educators communicate with each family every day, sharing detailed information about your baby's day.
- Friday Shabbat sing and daily outside time are a staple to our program.

Our babies are looked after with a developmental understanding of their age
and with warmth, joy and consistency!
